

# Asymmetric Organocatalytic Thio-Diels–Alder Reactions via Trienamine Catalysis

Hao Jiang, David Cruz Cruz, Yang Li, Vibeke Henriette Lauridsen, and Karl Anker Jørgensen\*

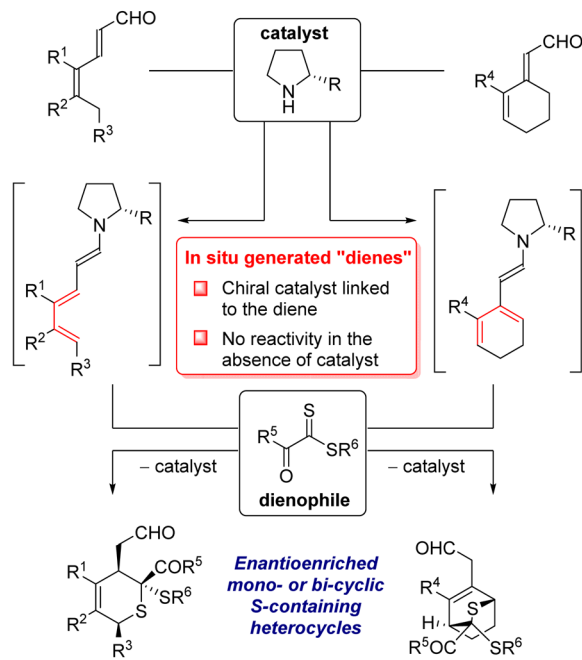

*J. Am. Chem. Soc.* **2013**, *135*, 5200–5207. DOI: 10.1021/ja4007244

Page 5201. In Figure 2, top section, the 2-oxazolidinone moiety in the dithioester should be replaced with OEt. Similarly, X = 2-oxazolidinone should be replaced with X = OEt. The corrected figure is shown below.

## Previous work: Targeting the dienophile (Gulea *et al.*)

## This work: Targeting the diene

**Figure 2.** Summary of previous work and the design plan of this work.

The authors thank Prof. Michaela Gulea for kindly pointing out our mistake.
