Stephen M. Contakes, Sodio C. N. Hsu, Thomas B. Rauchfuss, and Scott R. Wilson: Preparative and Structural Studies on the Carbonyl Cyanides of Iron, Manganese, and Ruthenium: Fundamentals Relevant to the Hydrogenases

Page 1671. In our recent paper we presented what we thought was a comprehensive listing of the known metal carbonyl cyanides (Table 1). Professor John Ellis has brought to our attention that two compounds are missing from this listing, $[\text{Ta}(\text{CN})(\text{CO})_5]^{2-}$ and $[\text{V}(\text{CN})(\text{CO})_5]^{2-}$.^{1,2}
