

The Structural Basis of *Cryptosporidium*-Specific IMP Dehydrogenase Inhibitor Selectivity [*J. Am. Chem. Soc.* **2010**, *132*, 1230–1231].
Iain S. MacPherson, Sivapriya Kirubakaran, Suresh Kumar Gorla, Thomas V. Riera, J. Alejandro D'Aquino, Minjia Zhang, Gregory D. Cuny, and Lizbeth Hedstrom*

Page 1230. In Table 1, compounds **C84** and **C86** were incorrectly identified as having $R_2 = 2,3\text{-di-ClPh}$. These entries should be $R_2 = 3,4\text{-di-ClPh}$. The compounds were correctly identified in the text, so these changes have no implications for the discoveries and conclusions described in the Communication.
