

Multiple-Filled Skutterudites: High Thermoelectric Figure of Merit through Separately Optimizing Electrical and Thermal Transports

Xun Shi, Jiong Yang, James R. Salvador, Miaofang Chi, Jung Y. Cho, Hsin Wang, Shengqiang Bai, Jihui Yang,* Wenqing Zhang,* and Lidong Chen*

J. Am. Chem. Soc. **2011**, *133*, 7837–7837. DOI: 10.1021/ja111199y

Page 7843. The sentence that begins “The sharp increase ...” in the discussion of Figure 11 should be omitted.

Page 7844. In the caption to Figure 11, the following sentence should be inserted: “The sharp increase in scattering intensity above about 8 meV is attributed to a time-independent background that was not subtracted from the experimental data.”

Page 7845. The following acknowledgment was inadvertently omitted: “We acknowledge the support of the National Institute of Standards and Technology, U.S. Department of Commerce, in providing the neutron research facilities used in this work. The neutron scattering experiment was performed using facilities whose operation is supported in part by the National Science Foundation under Agreement No. DMR-0944772.”
